Ultimate light management

MB-450 mattebox

Full option, high-end production mattebox, two fully rotatable 5,65"x5,65" (or two 4"x5,65") filterframes, one non rotatable 4"x5,65" filterframe and one 4"x5,65" filter in the hood. Internal eyebrows, and a foldable top flag. Max. lens diameter of 144mm.

#0400-0451

Barsadapter for MB-450

Adapter with quick-lock mechanism.
If a Vocas MB-450 mattebox is used on a standard 15mm lightweight rail support, this (or #0460-0200) adapter is always required.

#0460-0001

Swing-away bracket for MB-450

This bracket enables the user to quickly change lenses without having to disassemble the mattebox setup. If a Vocas MB-450 mattebox is used on a standard 15mm lightweight rail support, this (or #0460-0001) adapter is always required.

#0460-0200

Adapter for 19mm rails:

#0460-0250

Flexible adapterring adapter ring for MB-450

Soft rubber donut ring. Required if a mattebox is used on a rail support to fill the gap between the rear of the mattebox and the lens front. Max. lensdiameter 138mm. This ring can hold an additional round 138mm filter.

#0420-0001

MB-255 mattebox

Advanced compact mattebox, one fully rotatable 4"x4" filterframe, one 4"x4" non rotatable, internal eyebrows and a French flag. Max. lens diameter of 114mm. Fits on the Sony PL lenses which are sold with the Sony F3 camera. Including a step down ring to the Vocas 105mm adapter ring system.

#0200-0255

Barsadapter for MB-2XX

Height adjustable adapter with quick-lock mechanism.

If a Vocas MB-2XX mattebox is used on a standard 15mm lightweight rail support, this adapter is always required.

#0360-0100

105mm flexible adapter ring kit for MB-2XX

Soft rubber donut ring. Required if a mattebox is used on a rail support to fill the gap between the rear of the mattebox and the lens front. For 105mm matteboxes. Maximum lensdiameter 95mm.

#0320-0010

105mm adapter ring system for MB-2XX

If a mattebox is used as a clip-on, an adapter ring is required to attach the mattebox to the lens. An extensive range of different sizes rings is available. Please see the MB-2XX accessory page on our website www.vocas.com for more details.

Follow focus MFC-1

This compact follow focus system, the MFC-1, enables the cameraman to control the focus with more precision. Attaches directly to any 15mm lightweight support with a quick-lock clasper.

#0500-0001

Drive gear M0.8, 46 teeth for any PL lens.

#0500-0101

Flexible gear ring kit. For all cylindrical focus barrels with an outside diameter between 40mm and 100mm, Tooth size M0.8. For lenses without toothed focus ring.

#0500-0290

This is a selection of the most important accessories, all other accessories such as adaptor rings, side flags, filter frames etc. can be found on our website www.vocas.com.

This double sided 15mm lightweight rail support is especially made for the Sony PMW-F3 and provides an extremely stable platform for attaching multiple additional 15mm accessories. This rail support is attached to the camera with three 1/4" screws. It includes an extra long balance plate tripod attachment, allowing the user to position the camera on its centre of gravity when mounting it on a tripod.

This rail support comes standard with a set of 15mm rails of 400mm in length.

#0350-0700

Conversion kit for 15mm to 19mm rail support

If the 15mm rails are removed from the Pro rail support type K (above), this kit can be attached to the type K base plate very quickly, converting your 15mm rail kit to a 19mm support instantly. The kit contains: two pieces 19mm to 15mm support brackets, a set of 19mm rails of 400mm in length and a balance plate which can be attached directly to the 19mm rails, and acts as a tripod attachment.

For more details see the backside of this folder.

#0480-1000

15mm universal lens support

Lens support for 15mm rails. Adjustable for lenses varying from 65mm to 105mm in diameter.

#0360-0500

15mm rails

Vocas has an extensive range of various lengths of 15mm rails available, ranging from 35mm to 400mm. Please see the MB-2XX accessory page on our website www.vocas.com for more details.

15mm shoulder support

A shoulder support that attaches directly to standard 15mm lightweight rails.

This shoulder support features a thick rubber pad which lets even a heavy camera setup rest comfortably on a shoulder. It can be adjusted in angle to accommodate different body types and features attachment points on the back for battery holders or counter weights. This shoulder support includes 350mm long rails, which is sufficient to mount the shoulder support in most setups.

15mm offset bracket

Specifically made for use with the Vocas 15mm shoulder support and a mid-size video camera. This offset bracket moves the shoulder support more to the right side of the eye of the camera, so the viewfinder is placed in front of the eye of the camera man. This item comes with two pieces of 15mm rails of 143mm in length, to allow the shoulder support to move more towards or away from the camera.

Battery adapter plate

For attaching different brands V-lock battery mount plates directly on the back of the Vocas 15mm shoulder support (instead of the counter weights).

#0370-0001

Shoulder support counter weight

Specifically made for use with the 15mm shoulder support. This counter weight system consisting of an attachment plate, which is mounted directly to the back of the shoulder support, and stackable 1kg stainless steel weights.

Weight attachment plate for Vocas shoulder support. #0370-0200

Weight 1kg for Vocas Shoulder support. #0370-0210

Handgrip set

This handgrip set fits on any 19mm and 15mm lightweight rails and is ideal for use with the Vocas Shoulder bracket. The handgrips can be rotated, positioned and tilted easily to assume the perfect position for any situation.

Handgrip kit, including one handgrip #0390-0001

Handgrip kit, including two handgrips #0390-0002

Handgrip extender

can be placed between the combi rail bracket and the handgrip for more adjustability.

#0390-0007
