# MT LEVELLERS

## DESCRIPTION

All of our MovieTech products are designed to precisely meet the demanding requirements of each shooting as well as to withstand the rough conditions of the daily work on set.

The broad variety of leveller-systems offer the ideal solution to fast and easy levelling of your camera.

The MT 3-Way-Levellers are available in two different versions – a standard and a XL version. Each version can be equipped with different mounting-plates (Mitchell- or Euro-mount)

The MT 4-Way-Leveller set offers a boundless variety of mounting-plates. With this flexible system, there are no surprises on the set!

# MT LEVELLERS

THREE MODELS TO COVER APPLICATION

**3 Way Leveller**

**3 Way Leveller XL**

**4 Way Leveller System**

# 3 Way Leveller (standard)

THE THREE WAY LEVELLER FOR THE DAILY USE ON SET

**PRECISE LEVELLING!**

- 22,5° angle of inclination (outstandingly high)
- Load capacity of up to 200 kg
- 2900 Gramm (6,39 lbs) gross weight
- Re-adjustment of joints (almost no wear off parts)
- Fine thread (leveling by hand with heavy load possible)
- Fitted for top and upside down assembly
- Allows overhead work

The new 3-Way-Leveller operates with a fine thread, which allows an exact positioning of the angle of inclination. The 22,5° angle of inclination with is outstandingly big, which shows as a big advantage in rough terrain. The 2900g / 6,94 lbs. light leveler is mainly made out of weight-saving aluminum. The joints are backlash-free and can be re-adjusted. Different versions with Euro- or Mitchell-mount are available. For example: The leveler mounted on a Magnum Dolly can also be easily used for overhead work based on the tight fit processing.

# 3 Way Leveller (standard)

VERSIONS AND ACCESSORIES

SECOND BUBBLE LEVEL  
FOR OVERHEAD WORK

**3-Way Leveller  
Euro to Mitchell**

Item No: 2202-0

Accessories:

Item No. 2026-0

Adapter from Mitchell on Euromount  
(with short bolt)

# 3 Way Leveller XL

THE THREE WAY LEVELLER WHEN HEAVY EQUIPMENT IS USED

**VERY SOLID DESIGN!**

- 25 ° angle of inclination
- Load capacity of up to 750 kg
- 9200 g (Lightweight aluminum for the most part)
- Re-adjustment of the joints (hardly any wear off parts)
- Fine threads (leveling manually for high load)
- Overhead work possible (new suspension)

The new three-way leveling unit "XL" is designed to withstand even the toughest conditions on set and to carry loads as high as 750 kg.

Fine threads enable very precise positioning of the tilt angle (up to 25°). It weighs approx. 9200g and is mostly made of aluminum, the bearings are free of play and can be readjusted as required. Different versions with Euro- or Mitchell-mount are available. Also usable for overhead work due to the optimal form fit.

# 3 Way Leveller XL

## VERSIONS AND ACCESSORIES

### Version 1 - Mitchell mount:

**3-Way Leveller XL  
Mitchell to Mitchell**

Item No: 2203-1

### Version 2 - Euro mount:

**3-Way Leveller XL  
Euro to Mitchell**

Item No: 2203-2

### Accessories:

Item No. 2026-0

Adapter from Mitchell on  
Euromount (with short bolt)

Various adapter plates for  
different crane types are available

# 4 Way Leveller System

BE READY FOR ANY APPLICATION

**PERFECT LEVELLING IN  
EVERY SITUATION!**

- 7° inclination angle
- 5900g only
- Fine threads
- Overhead work possible (new suspension)
- Various adapter plates for any application

## **No more surprises on the set!**

The flexible system with optional connection plates can be exchanged via bayonet system and covers every field of application!

The base is a gimbal which can be equipped with various top and bottom plates (Euro and Mitchell-mount)!

## **Changing the plates only takes a few seconds.**

This is thanks to the practical bayonet closures. The new 4-way levellers are play-free and very robust – ideal for the tough requirements on the set.

Each set-up can be supplemented with additional adapter plates in a short time.

## **Fine threads allow very precise positioning of the tilt angle.**

The 5900 gram lightweight 4-way levellers are **mainly made of aluminum, loaded parts are made of high-performance steel.**
